THERE is no abatement of the yellow fever scourge in the South.

ATTEND the Democratic meeting at the court house Saturday at 3 P. M.

THE nomination of G. F. Rothwell means 3,000 Democratic majority next fall.

Up to September 3d there has been \$241,881 contributed to the yellow fever sufferers, by the people of the Northern cities.

LOCK up the stable after the horse is stolen and gone, in keeping with this idea we heard that Col. Gates the state treasurer, has written to the leading banking institutions inviting bids for the deposits and officially informed the governor to that effect.

THE Democratic split in the 12th congressional district is likely to bring forth and elect a Republican. Judge Harrison, of Marion; Judge Wilson, of Knox; Col. Bishop and Col. Hiller, of Clark; Capt. Howe, of Lewis and Gen. F. A. Jones, of Macon are mentioned.

JUDGE E. J. BROADBENT, of Chillicothe, visited our city on Tuesday last. We understand he is looking up a greenback nomination for congress. He had as well stay at home if that was his business. The Grundy county Democracy does not wander in search of new Gods.—Grundy County Times.

WE call attention to the proceedings of the National Greenback Labor Party of Chariton county, which were passed at a meeting of the Central Committee of that party held at the Oldham school-house on the 24th of August, 1878, which we publish this week by request.

It is rumored that a call has been made on Adjutant General Mitchell by the Commander-in-Chief of the militia of the state, to advise him immediately what force is available at short notice to enable him to sustain the circuit court of St. Clair county in the discharge of its duty at the regular session on Monday next.

JUST as we go to press we received a telegram announcing the fact that Hon. A. Mackay, Sr., was nominated for state senator for this 6th senatorial district on the 43d ballot of the senatorial convention which convened at Linn, Mo., Thursday the 5th inst. A full report of the convention will appear in our next issue of this paper.

THE old Fat Man, who presides over the *Brunswick* has at least kept awake long enough to write between naps, that he fears the Democratic central committee, of this county, is in a deep sleep. He declares that September is upon us, and nothing done. We were of the opinion that we had never seen so much done to arouse a party so early in the season as has been done during the past months of July and August. September and October are usually the months devoted to such work, but this season on account of a primary election, it has been commenced and kept up two months in advance of the usual campaign. Take another nap, old man, the county is safe. A little more sleep and a little more slumber. The election don't come till next November.

POLITICAL ORGANIZATION.

Nothing is so well calculated to bring success in political contests as thorough political organization. Complaint is being made against the central committee for inactivity. The committee are all private individuals who have no more at stake than any other citizens, and the burden and expense of organizing the party through out the county should not be imposed on them but the people in each school district should take the matter in hand and organize the party thoroughly. Let the work be commenced at once and kept up until the election.

THE Salisbury Press in its last issue came up to the work in true Democratic style. Speaking of the nomination of Mr. Rothwell, it says: "From all we can learn of him, he is well calculated to lead the Democracy of this district to sure victory in November, next. We preferred a man from our own county, had we thought him the choice of the district; and second to a man of our county we preferred Col. Mansur who it does seem to us was the choice of the district. But the matter is settled now, and we trust for the best. The name of Mr. Rothwell is now fixed at the head of our columns and will stay there until the election in November."

SECTION 15 of article 10 of the new constitution for the State of Missouri is as follows:

SECTION 15. All moneys now, or at any time hereafter, in the state treasury, belonging to the state, shall immediately on receipt thereof, be deposited by the treasurer to the credit of the state for the benefit of the funds to which they respectively belong in such bank or banks, as he may, from time to time, with the approval of the governor and attorney general select, the said bank or banks giving security, satisfactory to the governor and attorney general, for the safe keeping and payment of such deposits, when demanded by the state treasurer on his check—such bank to pay a bonus for the use of such deposits not less than the bonus paid by other banks for similar deposits; and the same, together with such interests and profits as may accrue thereon, shall be disbursed by said treasurer for the purposes of the state, according to law, upon warrants drawn by the state auditor, and not otherwise.

Had treasurer Gates and the other state officials complied with it, he and the state would not now have to mourn the loss of over a half million of the people's money.

JUDGE LUCIUS SALISBURY, in a somewhat lengthy article in the last issue of the Salisbury Press, returns thanks to his many friends who labored so zealously and unselfishly for his nomination at the recent primary election. The Judge has many friends in Chariton county, as well as other counties in the state, who regret that he failed to be nominated. There is no question that he has a more extensive, and better general acquaintance, throughout the state, than any other citizen in Chariton county. And if our people had seen fit to nominate him no one would pretend to question the fact that he would have made his people a most efficient and honorable representative. The Judge concludes the article with his pledge, and best wishes for the undeviated support of the successful ticket. After having spent about twenty-five of the best years of his life, and his fortune, in building up and aiding every laudable enterprise in Chariton county, he now closes his political career in writing, or by active work, and gracefully bows himself off the uneven, uncertain, ungrateful, ever sneaky and skanky stage of politics.

PREPARING STOCK FOR EXHIBITION.

1. Begin to feed an animal for show as young as it will eat. A calf should be pushed from four weeks old with plenty of milk and such solid food as it will eat. That is the time to begin to never quit.

2. Feed anything that they will eat, the best that is ordinarily given to such stock, and in such quantities as they want, being careful always that they clean up their troughs.

3. I never found it advisable to feed often more than three times a day—have tried suckling calves three times, and feeding the grown cattle five or even six times, but they will do no better than three times; and I have had good success sometimes in feeding twice, but that requires experience.

In general, I will say that an adept will soon learn the thousand details that make up the whole, if he has his eyes and ears about him and wants to learn. When he goes off to the fairs let him notice particularly how every body else does their work, especially those who take off the prizes. An occasional question, without being too inquisitive, will bring out one piece of information, and in adapting it to his own use, he may see something better. This is an art that must be studied, practiced and picked up. An industrious man with a taste for such things will learn more to do, or a great part of the work, himself, than in any other way.—*Exchange*.

WAKE UP.

OLD Uncle Ben. Naylor says: "The Democratic central committee is composed of the very best kind of sleepy-headed gentlemen, who either do not know their duty or else are too confounded indifferent to the interest of the party to perform that duty." The flies must have tickled the old man's nose and waked him up before his nap was out. He wants a meeting of the committee called to see what is to be done. We wonder if he would publish the proceedings of such a meeting correctly if the committee should see fit to accommodate him. It would no doubt be some trouble and expense on those "sleepy-headed gentlemen," to wake up and hold a meeting just to accommodate him, but then Uncle Ben is old and childish you know, and of course should be humored a little any how. So we think it best for those "sleepy-headed gentlemen" at least

to wake up and give the old man a hearing. It may be that in some of his little naps he has dreamed something about greenbacks that has frightened him. Bratley is known to be loose, running about the country like a roaring lion, seeking whom he may devour, and Uncle Ben may want the committee to organize a force to hunt him down and capture him. Delays in all important undertakings are dangerous. Wake up gentlemen, here is September come and going. Wake up and hold a meeting, before it is everlastingly too late.

BENEFIT.

We call special attention to the benefit proposed by the "Dickens Club" for our plume stricken brethren of the south, the notice of which, and programme to be presented appears in another column. It is a laudable enterprise, and we are glad to say, promises to be not only one of the best entertainments, but will attract also a large number of the best of the crowd. Our citizens cordially second so worthy a movement. We cannot describe the deep, sad and death dirge, that is borne on every breeze from the cities and villages of the fair sunny south. In New Orleans, up to date, over two thousand have fallen victims to the sorrow monster, and thousands more are being consumed by this fever. A force cannot be had large enough to dig graves and nurse the dying. In many instances whole families have been found who had yielded to this death monster and their bodies fearfully mutilated before discovered. Able hearted men and women are contributing money from all parts of the country, to secure nurses and medicine for the sick and dying. New York city is sending her \$10,000 a day. Chicago has given over \$32,000, and St. Louis her thousands. Not only this, but our neighboring towns are sending in their hundreds. And our chosen home of Keytesville, with its reputation for liberality, we predict, will swell the proceeds by the entertainment of the 13th, to a generous amount.

HON. SAM DAVIS, of Saline county who was a member of the legislative committee appointed by Gov. Hardin to settle with state treasurer Mercer, publishes a card in the St. Louis Republican of the 2d inst., in which he undertakes to show that the whole duty, and work performed by that committee was simply to settle with Mercer, and find out how much money he ought to pay to Col. Gates his successor, and report the facts to the legislature, which they did. He says the committee did not pretend to count the current funds in the hands of the outgoing treasurer. Those funds he says were not in the treasury vault and the committee had no power to compel their production. He says there was no law requiring that they should be kept in the vault of the state treasury and that the committee appointed to examine into the condition of the treasurer's accounts had nothing to do with transferring the funds from the outgoing to the incoming treasurer. He claims that the amount reported by the committee is what should have been paid to Col. Gates, and that Gates should not have given any receipts until the money was either actually or constructively in his possession. He says further, that if Mercer gave Gates a check on the Macon bank which has not been paid, then Gates gave a false receipt, and the books of both the Auditor's and Treasurer's offices have been made to show a falsehood, and not only so but that Col. Gates has made four false reports—three of which are required to be made under oath. Mr. Davis explodes all the talk about the worthless checks on the Macon bank, which it has been claimed were turned over by ex-Treasurer Mercer to Col. Gates. He alleges plainly that Mr. Mercer now has the aforesaid checks in his possession cancelled. How did Mercer get those checks into his possession cancelled unless he paid them? Col. Gates and his friends had better begin to direct attention to the bottom facts in the defalcation business. There is a grave error some where, and the people whose money has been lost are patiently waiting for a proper explanation.

Resolved, That there shall not be chosen by the National Greenback Labor Party of this county, more than two candidates from any one township, unless such township or townships fail, from good cause, to fill such positions, but in case any township should fail to furnish that number, and no township can furnish them otherwise, then they shall be chosen from the body of the county.

Resolved, That the candidates be chosen by a convention of delegates from each township in the county and that the delegates to the county convention be chosen by the members of the clubs, in their respective townships, in the ratio of one delegate for every twenty-five voters, and one additional delegate for every factor of twenty-five.

Resolved, That we will not nominate any person as a candidate for any office unless he be an active member of the National Greenback Labor Party.

Resolved, That the County nominating convention be held at Keytesville, Chariton county, Missouri, on the 14th day of September, 1878.

OFFICIAL OPINION.

The question as to what compensation the clerk of the county is lawfully allowed existing law having come up for discussion during the recent canvass, Mr. F. T. Dyart, for the purpose of having the matter definitely settled, called upon Col. C. W. Bell for an official opinion on the subject, which, together with the correspondence and official opinion of the Attorney-general, of the state, confirming the same we publish below.

It is due to Mr. Dyart to say that this authoritative decision in the premises has been brought about at his own instance and request, and that his own action and claims in the matter will be governed in conformity to the construction of the law here given.

The following are the opinions: "KEYTESVILLE, Aug. 24, 1878. F. T. DYART, Clerk of the County Court of Chariton County.

Sir, in answer to your request for my official opinion as to whether the constitution adopted in 1875, together with any subsequent law of the legislature, has made any change or modification in the special act for the local government of Chariton county, contained in the session acts of 1874, so far as regards the fees and compensation of the county clerk, I will say that in my opinion, the present constitution and the statutes of 1877, continue the existing law of the special organization and officers created under the special act of 1874, until the term of the present officers expires, by the limitations prescribed in the act itself, and so there is no express law I can find changing the salary of such officers, my conclusion is that the intention of the salaries as prescribed by the special law, and especially in view of section 8, in article 14 of the constitution. Vide section 4, page 43, schedule constitution statutes 1877 page 266, section 3, also page 230, section 3, latter part of section. Respectfully,

C. W. BELL, Prosecuting attorney of Chariton county.

HON. J. L. SMITH, Attorney-General of the State of Missouri.

Sir, the general assembly of this state in the year 1874 (vide session acts of 1874, page 211) passed a special act for this county regarding the number of county officers for the county and fixing their fees of office. It has become important to know whether the constitution adopted in 1875 together with any subsequent law of the legislature has made any change or modification in the special act referred to, so far as regards the fees of the county clerk. In other words, under what law are the fees and salary of the county clerk to be determined? Upon this point my opinion, as the prosecuting attorney of this county has been asked by the county clerk, who is interested, which I have given, but as a difference of opinion exists among the members of the bar as to its correctness, I now ask of you, as my official adviser, your opinion. Respectfully, C. W. BELL, Prosecuting attorney of Chariton county.

STATE OF MISSOURI, OFFICE OF ATTORNEY GENERAL, Jefferson City, Mo., Aug. 30, 1878. C. W. BELL, Esq., Keytesville, Mo. Dear Sir, In answer to yours of the 26th inst., asking in what amount of salary the clerk of the court of Chariton county was entitled to under the constitution and laws of this state, I will state that section 6 of the act of March 28, 1874 (acts of 1874, page 211) fixes the salary of such officer at fifteen hundred dollars. That act is a valid and constitutional enactment. I can find no provision of the constitution of 1875 or subsequent legislative enactment which repeals said act. Section 1 of the schedule to said constitution provides that "the provisions of all laws, and which are inconsistent with such provisions of this constitution as requires legislation to enforce them shall remain in full force till the first day of July 1877, &c." Now, there is no provision of said constitution, to my knowledge, inconsistent with said act of 1874. Section 12, of article 3, provides that "the general assembly shall by a law uniform in its operation provide for and regulate the fees of all county officers, &c." This is a constitutional duty and the general assembly to do certain things and to enact certain laws but the failure of the general assembly to comply with such command did not work a repeal of the act of 1874. Of course when the general assembly passes the law required by said section the effect thereof will be to repeal said section 6, of the act of 1874 and others of like character, but until this is done said act fixes the amount of the fees referred to, I therefore concur with you in the conclusion expressed by you. Very respectfully, J. L. SMITH, Atty-General.

HON. A. H. BUCKNER the present Democratic Congressman from the 13th district who is a candidate for re-election refuses to stand on the Jefferson City platform adopted by the Democracy of this state. He says he can not endorse the state Democratic platform without stultifying himself and surrendering his honest opinions and convictions, which he would not do for a seat in congress.
